

How can I get my VA claim processed faster?

The Veterans Administration currently has many claims pending for various types of benefits. Because of that, many veterans feel that their case might be overlooked or handled improperly.

I am always glad to help in these situations. At my request, the VA will "flag" a particular case and keep me updated throughout the process. However, it is important to know that I cannot act as the "representative" on a person's VA claim. You may still want an attorney or veterans representative to help you with this. My actions will not affect the work done by the person you select as your representative.

If you would like my help with a claim or appeal, please print out this [Authorization Form](#) and fax or mail it to my Fayetteville office.
